General information

The journal *Ultraschall in der Medizin (ISSN 0172-4614)* is published bimonthly. It is indexed in MEDLINE, Current Contents (CM), Science Citation Index and EMBASE/Excerpta Medical Abstract Journals.

Note to our readers in Germany

Your publisher is making every effort to ensure correct supply of the journal to which you have subscribed. However, it happens that subscribers omit to inform us of their new address on changing their residence or postal address. The German postal services are helpful in such cases by letting us know to where you have moved. If you do not wish them to do so, please tell us.

Subscription rates	postage	total
2007*		
Germany	279,-	14,90
Europe	279,-	22,80

* recommended retail price

Manuscripts

Manuscript submissions are accepted exclusively online at <http://mc.manuscriptcentral.com/eju>. Manuscripts should be prepared according to the "instructions to authors" at <http://www.thieme.de/ultraschall>. Should you have any questions regarding manuscript submissions or experience technical problems with the system, please contact the Editorial Office at eju.editorialoffice@thieme.de or call ++49(0)711-8931-178.

In principle only papers will be accepted which have not been published previously, domestically or abroad. Furthermore, manuscripts may not be offered to other publications at the same time as they are under consideration for this journal.

Instruction to Authors:

<http://www.thieme.de/ultraschall>

Online

The scientific text of this journal is available online through Thieme-connect, <http://www.thieme-connect.de>. Access to Thieme-connect is free of charge for personal subscribers. For information concerning licences and prices for institutional access, please contact Bernd Hess, email: sales@thieme-connect.de. Customers from North, Central and South America and Canada please contact Alexandra Williams, email: awilliams@thieme.de.

This journal offers authors the possibility to provide for a fee open access to their published manuscripts in Thieme-connect. If you are interested in making your published work available to all for general use, please write an email to ultraschall@thieme.de.

Copyright

This journal, including all individual contributions and illustrations published therein, is legally protected by copyright for the duration of the copyright period. Any use, exploitation or commercialization outside the narrow limits set by copyright legislation, without the publisher's consent, is illegal and liable to criminal prosecution. This applies in particular to photostat reproduction, copyright, cyclostyling, mimeographing or duplication of any kind, translating, preparation of microfilms, and electronic data processing and storage.

With the acceptance of a manuscript the publishers acquire – for the duration of the legal period of protection (§ 64 UrhRG) – the exclusive right for the use of the rights of exploitation according to §§ 15ff. of the German copyright law, especially also the rights of translation, of duplication by photostat or similar methods, and of electronic data processing.

Photostats for personal or other own use may be made exclusively of individual contributions or parts thereof in the form of single copies.

For users in the USA

Authorization to photocopy items for internal or personal use, or the internal or personal

use of specific clients, is granted by Georg Thieme Verlag KG Stuttgart · New York, for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of \$ 10.00 per copy of each article is paid directly to CCC, 222 Rosewood Drive, Danvers, MA 01923, 0016-5751/02 \$ 10.00. For reprint information in the US please contact International Reprint Corporation, 287 East "H" St., Benicia, CA 94510, USA; phone: 1-707-746-8740, fax: 1-707-746-1643; email: irc@intlreprints.com

Product names

Product names which are registered trademarks may not have been specifically designated as such in every case. In case that a product has been referred to by its registered trademark it cannot be concluded that the name used is in the public domain. The same applies to patents and registered designs.

Important note

Medicine is an ever-changing science undergoing continual development. Research and clinical experience are continually expanding our knowledge, in particular our knowledge of proper treatment and drug therapy. Insofar as this journal mentions any dosage or application, readers may rest assured that the authors, editors and publishers have made every effort to ensure that such references are in accordance with the state of knowledge at the time of production of the journal.

Nevertheless this does not involve, imply, or express any guarantee or responsibility on the part of the publishers in respect of any dosage instructions and forms of application stated in the journal. Every user is requested to examine carefully the manufacturers' leaflets accompanying each drug and to check, if necessary in consultation with a physician or specialist, whether the dosage schedules mentioned therein or the contraindications stated by the manufacturers differ from the statements made in the present journal. Such examination is particularly important with drugs that are either rarely used or have been newly released on the market. Every dosage schedule or every form of application used is entirely at the user's own risk and responsibility. The authors and publishers request every user to report to the publishers any discrepancies or inaccuracies noticed.
